**Invites Particular Attention to its Special
and Popular Features, which are
Original with and Peculiar
to this Company.**

FIRST.—Its Rates are lower than those of most prominent companies.

SECOND.—It was the first company in the United States which guaranteed policy holders a DEFINITE CASH SURRENDER VALUE, the amount of which is distinctly ENDORSED ON THE POLICY IN FIGURES.

THIRD.—All of its Policies are absolutely Non-Forfeitable, with a rule for estimating the amount of its paid-up policies printed with them.

FOURTH.—Its Dividends are declared Annually upon the contribution plan, and are non-forfeitable, so that they will be paid even though the next premium is not paid.

FIFTH.—No restriction upon Travel or Residence.

SIXTH.—Its Charter permits it to make investments in any section of the Union, and it does invest in all its General Agencies, thereby rendering it a HOME COMPANY EVERYWHERE, and affording more ample security to policy holders as well as more advantageous rates of interest.

SEVENTH.—It receives the assistance and patronage of some of the best known, wealthiest, and most experienced business men and capitalists of Cleveland, to whom we are permitted specially to refer, and whose names we print herewith.

We each hold a Policy in this Company for \$10,000, for which we have paid full premium rates, and invite all persons who desire insurance to call on us, assuring them that we shall be pleased at all times to give them information about the Company.

CANVASSED AND COMPILED BY RICHARD EDWARDS, OF CHICAGO.

CLEVELAND, OHIO:

W. S. ROBISON & CO., PUBLISHERS, 65 & 67 FRANKFORT STREET.

1872.

INTRODUCTORY.

IN preparing our Cleveland Directory for 1872-73, which we present for public approval, we have met with such difficulty as would naturally arise from a simultaneous canvass of the same field by two different parties; a circumstance which has in some degree interfered with the correctness of our work ; and though we do not mention it as an apology for errors that may occur, it may excuse imperfections that were unavoidable under the circumstances.

The entire work has been done under the supervision of Mr. RICHARD EDWARDS, of Chicago, and his experienced assistants, who have spared no pains to make it entirely worthy of the approval which we are confident it will receive.

It is a subject of mutual congratulation to the public and ourselves, that there is but little prospect of future directory wars in Cleveland, as the experience of the present season has been most disastrous to the foreign foe, who will hardly have the hardihood to make another attack.

Thanking our citizens for their encouragement and liberal support, and trusting that our publications may continue to improve, we present our present work for their consideration.

HAZARD HAME COMPANY,

Sole Proprietors and Manufacturers of

HAZARD PATENT HAMES

Patented 10th Sept., 1861.

OFFICE & WORKS, 3, 5 & 7 WEST STREET, CLEVELAND, O.

All Hames offered by this Company are made from Extra Second Growth Timber.

These Hames are all carefully finished by hand and are intended to be the best goods that can be made.

The Pin A is made solid on the loop B and fits into the holes in the back of the Hame, so that when the strap C is put through the loop, the pin holds the loop firmly in its place. But when the Strap is unloosed, the pin may be withdrawn, and the Hame easily adjusted to any length of collar. A much NEATER CONNECTION is thus made than when the strap passes around the Hame, as in the Old Style. The Strap lies flat upon the top of the Collar, instead of standing edgewise or twisting down.

Having a thorough Agency System in the United States and Canada, with improved business facilities for conducting a wholesale and retail trade.

Lines commercial, forms convenient, rates and terms desirable. The character of these corporations is well indicated by the peerless record of the ANDES in the great Chicago fire. A new company paying over \$900,000 for losses, and continuing solvent and strong under that test—indeed everything which is excellent or essential in securing indemnity can be obtained as certainly and as promptly in this trio of companies as in any institution in the world.

GUIDE TO THE STREETS, AVENUES, ALLEYS AND BLOCKS.

EXPLANATION.

It will be noticed that in this Street Directory the names of the streets are set down in alphabetical order, enumerating all streets which cross the same in the order which they occur. The number on one corner has been given, so that a person wishing to find say No. 833 Superior street, on consulting the Street Directory, finds that it crosses Sterling av. at No. 829 and Waring street at 841, consequently the place he seeks is between the two streets, and but a few doors from Sterling av. Where no numbers are designated the corners are either vacant or built up with a church or a school.

ABBREVIATIONS.—N. for North; N. E. for North east; N. W. for North west; S. for South; S. E. for South east; S. W. for South west; E. for East; W. for West; sq. for for square; av. for avenue; al. for alley; fr. for from.

WARD BOUNDARIES.
